

My son has been a swimmer at Hubbard Family Swim School since March of 2002 and I just thought it was time to let you know just how thrilled my family (and I do mean family-Robbie's great grandparents come to every lesson as well as grandparents, aunts and uncles when in town) and I are with everything about your program. He has had many different instructors, and each instructor has been wonderful and has made all of my son's family observers feel very welcome. I believe this is honestly the most rewarding part of the week for his 89-year-old great grandparents. Everyone I have had any experience with there at the snack bar, behind the desk, deck supervisors, etc. have been very kind and helpful. I have recommended your program very highly to numerous friends, neighbors and my mom's club. Thank you to everyone there for being such a special, caring part of my child's life.

Sincerely,

Ellen
